1. OVERVIEW

How 313,706 patients from 2,024 medical practices reported 6 measures of patient experience based on the 2018 Consumer Assessment of Healthcare Providers and Systems (CAHPS) Clinician & Group Survey Database.

HIGHEST SCORING MEASURES

- **Provider Communication**: 85% of patients reported that providers always communicated clearly and listened carefully.
- **Rating of Provider**: 80% of patients rated their provider 9 or 10, with 0 being the worst and 10 being the best provider possible.
- **Office Staff**: 79% of patients reported that office staff were always helpful and respectful.

LOWEST SCORING MEASURES

- **Care Coordination**: 73% of patients reported that providers always helped to coordinate their care.
- **Access to Care**: 66% of patients reported always receiving timely appointments, care, and information.
- **Self-Management Support**: 55% of patients reported that providers always talked about their health goals and difficulties with self-care (PCMH supplemental measure).
## 2. INTRODUCTION

The Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Clinician & Group Survey Database receives data voluntarily submitted by survey users that have administered the CAHPS Clinician & Group Survey (CG-CAHPS). This annual Chartbook presents results from the 2018 CAHPS Database for the CG-CAHPS Adult 3.0 Survey.

As shown in Table 1, the 2018 CG-CAHPS Database combines results from the Adult Survey 3.0 with the Adult Survey 3.0 with Patient-Centered Medical Home (PCMH) Supplemental Items (Adult 3.0 Combined). Data submitted were collected from January 2018 through June 2019 and represent patient encounters that occurred between January 1, 2018 and December 31, 2018.

### Table 1. Composition of the 2018 CG-CAHPS Database

<table>
<thead>

<td><strong>313,706</strong></td>
</tr>
</tbody>
</table>

The summary results presented in this Chartbook are compiled from detailed data voluntarily reported in the CG-CAHPS Database Online Reporting System (ORS). The ORS is a Web-based platform that allows users to interact with the results for survey composite measures, rating measures, and individual items. The CG-CAHPS ORS is updated annually with new data submitted by CG-CAHPS Survey users.

De-identified CG-CAHPS data research files are available upon request according to the CAHPS Database Data Release Policy. To learn more, visit [https://cahpsdatabase.ahrq.gov/DataResearchers.aspx](https://cahpsdatabase.ahrq.gov/DataResearchers.aspx).

Questions or comments regarding this Chartbook or the CG-CAHPS Database may be directed to the CAHPS Database by email CAHPSDatabase@westat.com or questions may be directed to the toll-free help line at 888-808-7108.

### Data Limitations

The organizations that voluntarily contribute data to the CAHPS Database are not drawn from a statistically representative sample of all U.S. medical practices, and a limited number of practices may choose to participate. Therefore, the submitting organizations are not representative of all U.S. medical practices, nor are they representative of any of the other comparison categories presented in this report (such as state, urban/rural classification, and provider specialty). Estimates based on these voluntarily submitted data sets of the medical practice and patient populations might be biased as it is not possible to compute estimates of precision from these data. In addition, the number and mix of organizations contributing data vary slightly from year to year, and therefore comparisons over time should be made with these limitations and variations in mind.
3. SELECTED HIGHLIGHTS

Selected highlights of the 2018 results presented in this Chartbook include the following:

- "How Well Providers Communicate with Patients" was the highest scoring composite measure (85%) and "Getting Timely Appointments, Care, and Information" was the lowest scoring composite measure (66%).
- Practices located in Louisiana, Massachusetts, Ohio, and Tennessee consistently scored above average for all composite measures.
- Practices with only one provider scored higher on all composite measures than practices with more than one provider.
- There is a slight decline in scores for 4 of the 5 core measures between 2015 and 2017, with 2018 scores remaining stable at similar levels to 2017.

4. RESULTS

This section presents the results for the CG-CAHPS Adult 3.0 Combined survey version in the 2018 CG-CAHPS Database. Results are presented in the form of bar charts that graphically show the distribution of responses for the four core composite measures (groupings of topically related survey items), individual question items, provider rating, and the PCMH supplemental composite measures. Appendix A lists the composite measures, individual items, and ratings for the Adult Survey 3.0 with and without PCMH supplemental items. Users can compare their own results to the relevant bar charts in order to identify performance strengths as well as opportunities for improvement.

The bar charts are composed of colored segments that show the percentage of responses in each response category. For questions and composite measures using 4-point response scales (i.e., "always", "usually", "sometimes", and "never"), the left-most segment combines the two lowest response categories (i.e., "sometimes" and "never").

Results are also presented by State, urban/rural classification, provider specialty, and by number of providers working each week (as an indicator of practice size). Trend data for available years are also presented.

All results presented in these charts are calculated at the respondent level. Survey results are presented in the following order:

- Getting Timely Appointments, Care, and Information (Access)
- How Well Providers Communicate with Patients (Provider Communication)
- Helpful, Courteous, and Respectful Office Staff (Office Staff)
- Providers’ Use of Information to Coordinate Patient Care (Care Coordination)
- Rating of Provider

As noted earlier, detailed results are available through the CG-CAHPS Database Online Reporting System.

**Adult Survey 3.0 Combined (continued)**

**Composite/Item**

**Talking with You About Taking Care of Your Own Health (PCMH)**
- Someone from provider’s office talked with patient about specific health goals
- Someone from provider’s office asked if there were things that made it hard for patient to take care of health

**Individual Items**

- **Get information about what to do if care is needed on evenings, weekends, or holidays**
- **Patient saw a specialist for a particular health problem**
- **Someone from provider’s office talked about worrying/stressful aspects of patient’s life**

**Provider seemed informed and up-to-date about care from specialist**

APPENDIX A. CHARACTERISTICS OF THE 2018 CG-CAHPS DATABASE

When reviewing the CAHPS Clinician & Group Survey (CG-CAHPS) results, it is helpful as context to understand the types of practice sites that make up the comparative results for all versions of the survey. The CAHPS Database asked each submitter to provide information about their practices (i.e., “practice site characteristics”) along with their survey responses. Users can compare their results to similar organizations using the reported practice site characteristics.

**Practice Site Characteristics**

The distribution by of practice sites and survey respondents by region and number of providers working per week is shown in Table A-1. To determine a practice site’s region, practice sites were assigned to one of the four U.S. Census Bureau’s regions, based on the practice sites’ self-reported State and ZIP code information. The largest concentration of practice sites that submitted data to the CAHPS Database are from the West.

As a proxy measure for practice size, the number of providers (e.g., doctors of medicine, doctors of osteopathic medicine, physician assistants, nurse practitioners, etc.) working per week is shown in Table A-1. This information was self-reported at the practice-site level. The majority of practice sites that submitted their data to the CAHPS Database have either 4 to 9 providers or 2-3 providers working during a typical week.

**Table A-1. Number of Practice Sites and Respondents by Region and Number of Providers Working per Week**

1 States are categorized into U.S. Census Bureau-defined regions as follows:
Northeast: CT, MA, ME, NH, NJ, NY, PA, PR, RI, VT
Midwest: IA, IL, IN, KS, MI, MN, MO, NE, ND, OH, SD, WI
West: AK, AZ, CA, CO, GU, HI, ID, MT, NM, NV, OR, UT, WA, WY
South: AL, AR, DC, DE, FL, GA, KY, LA, MD, MS, NC, OK, SC, TN, TX, VA, WV
Survey Completion Mode
Survey completion mode is reported at the respondent level. As shown in Table A-2, the vast majority of the surveys submitted to the CAHPS Database were completed by mail, followed by phone and Web/Internet survey modes, respectively.

Table A-2. Distribution of Practice Sites and Survey Respondents by Survey Completion Mode

APPENDIX B. LISTING OF COMPOSITE MEASURES, RATINGS, AND INDIVIDUAL ITEMS

The following table presents the question wording and response options for the composite measures, ratings, and individual items included in the Adult 3.0 with and without PCMH item versions of the CAHPS Clinician & Group Survey. Question numbers are shown for both the core version as well as the version with PCMH items included (core Q#/core plus PCMH Q#).

**Adult Survey 3.0 Combined**

<table>
<thead>
<tr>
<th>Getting Timely Appointments, Care, and Information (Access)</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q6 In the last 6 months, when you contacted this provider’s office to get an appointment for care you needed right away, how often did you get an appointment as soon as you needed?</td>
<td>Never, Sometimes, Usually, Always</td>
</tr>
<tr>
<td>Q8 In the last 6 months, when you made an appointment for a check-up or routine care with this provider, how often did you get an appointment as soon as you needed?</td>
<td></td>
</tr>
<tr>
<td>Q10/Q11 In the last 6 months, when you contacted this provider’s office during regular office hours, how often did you get an answer to your medical question that same day?</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>How Well Providers Communicate With Patients (Provider Communication)</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q11/Q12 In the last 6 months, how often did this provider explain things in a way that was easy to understand?</td>
<td>Never, Sometimes, Usually, Always</td>
</tr>
<tr>
<td>Q12/Q13 In the last 6 months, how often did this provider listen carefully to you?</td>
<td></td>
</tr>
<tr>
<td>Q14/Q15 In the last 6 months, how often did this provider show respect for what you had to say?</td>
<td></td>
</tr>
<tr>
<td>Q15/Q16 In the last 6 months, how often did this provider spend enough time with you?</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Providers’ Use of Information to Coordinate Patient Care (Care Coordination)</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q13/Q14 In the last 6 months, how often did this provider seem to know the important information about your medical history?</td>
<td>Never, Sometimes, Usually, Always</td>
</tr>
<tr>
<td>Q17/Q18 In the last 6 months, when this provider ordered a blood test, x-ray, or other test for you, how often did someone from this provider’s office follow up to give you those results?</td>
<td></td>
</tr>
<tr>
<td>Q20/Q26 In the last 6 months, how often did you and someone from this provider’s office talk about all the prescription medicines you were taking?</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Helpful, Courteous, and Respectful Office Staff (Office Staff)</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q21/Q27 In the last 6 months, how often were clerks and receptionists at this provider’s office as helpful as you thought they should be?</td>
<td>Never, Sometimes, Usually, Always</td>
</tr>
<tr>
<td>Q22/Q28 In the last 6 months, how often did clerks and receptionists at this provider’s office treat you with courtesy and respect?</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Rating of Provider</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q18/Q19 Using any number from 0 to 10, where 0 is the worst provider possible and 10 is the best provider possible, what number would you use to rate this provider?</td>
<td>0-10</td>
</tr>
</tbody>
</table>
### Talking with You About Taking Care of Your Own Health (PCMH)

<table>
<thead>
<tr>
<th>Question</th>
<th>Description</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q22 PCMH4</td>
<td>In the last 6 months, did anyone in this provider’s office talk with you about specific goals for your health?</td>
<td>Yes, No</td>
</tr>
<tr>
<td>Q23 PCMH5</td>
<td>In the last 6 months, did anyone in this provider’s office ask you if there are things that make it hard for you to take care of your health?</td>
<td>Yes, No</td>
</tr>
</tbody>
</table>

### Other Individual PCMH Items

#### Access to Care

<table>
<thead>
<tr>
<th>Question</th>
<th>Description</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q9 PCMH1</td>
<td>Did this provider’s office give you information about what to do if you needed care during evenings, weekends, or holidays?</td>
<td>Yes, No</td>
</tr>
</tbody>
</table>

#### Coordination of Care

<table>
<thead>
<tr>
<th>Question</th>
<th>Description</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q20 PCMH2</td>
<td>Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and other doctors who specialize in one area of health care. In the last 6 months, did you see a specialist for a particular health problem?</td>
<td>Yes, No</td>
</tr>
<tr>
<td>Q21 PCMH3</td>
<td>In the last 6 months, how often did the provider named in Question 1 seem informed and up-to-date about the care you got from specialists?</td>
<td>Never, Sometimes, Usually, Always</td>
</tr>
</tbody>
</table>

#### Comprehensiveness

<table>
<thead>
<tr>
<th>Question</th>
<th>Description</th>
<th>Response Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q24 PCMH6</td>
<td>In the last 6 months, did you and someone from this provider’s office talk about things in your life that worry you or cause you stress?</td>
<td>Yes, No</td>
</tr>
</tbody>
</table>
